

Additional CEU Opportunity 2012 CATA State Symposium

Saturday, February 25, 2012
12 noon – 6:00 pm
Doubletree Hotel Sacramento

Técnica Gavilán Hands-On Workshop ***Taught by Gary Lang, MS, ATC***

Soft Tissue Mobilization

**Certificates in Instrument Assisted Soft Tissue Mobilization
(Issued upon completion of the course)**

Using the refined edge of the Gavilán surgical grade stainless steel instruments to augment your hands, the practitioner can detect soft tissue restrictions that your hands alone cannot feel. The **Técnica Gavilán** mobilization technique performs mobilization in three dimensional functional motions, will decrease pain from various soft tissue pathologies, increase range of motion and enhance athletic performance. The use of the instruments will decrease soreness in the hands of the practitioner associated with manual therapy.

Limited to 30 participants: ATC's, PT's, DC's & Graduate Students

6 BOC Approved Continuing Education Units - \$75.00

Enroll at <http://www.tecnicagavilan.us/Courses.html>

**Participants should wear loose fitting shorts, tank tops or T-shirts.
Bring a snack for a Lab Break.**
